Problem
Can we get the other users not in the ClearCase support group off klingon as their default ncd xterm server? There are at least 2 users, tfountai and mtheobal that are not in our group. Then, we would like to lock down the machine to only allow ccs and unix-admin netgroups access, and perhaps some select users that need to access the tape drive like shaupt for now.

Need Date: 3-27-98

Proposed Solution
Lock down the Klingon to only allow ClearCase Support group and unix-admin netgroups access, and perhaps some select users that need to access the tape drive like shaupt for now.
